The distant and remote outpost which once was Christiania, has in recent years turned into one of Europe’s fastest growing capital cities, its population of 700,000 is expected to reach the one million mark within the next twenty years. With this influx of people constantly moving to the Norwegian capital, the city is expanding at a rate that even most Osloites find hard to follow. Dozens of lively cafés, bars and restaurants have popped up, and continue to do so all over town. The once rusty docks have transformed into luxurious seafront architectural marvels and pearls of Oslo’s industrial past have been re-discovered and revamped into food halls, colleges, bars, restaurants, festivals and art galleries, breathing fresh air into Oslo’s cultural life. Recent years have seen the addition of modern landmarks by world-class architects and the emergence of a brand new skyline that continues to change.

Whether you are visiting for the city’s architecture or legendary design, you’ll find plenty of stylish places to dine, stay and sightsee. Oslo has come out of the cold to join the ranks of cool Scandi cities with a palpable sense of reinvention.

Whether you’re visiting for the city’s architecture or legendary design, you’ll find plenty of stylish places to dine, stay and sightsee. Oslo has come out of the cold to join the ranks of cool Scandi cities with a palpable sense of reinvention.

Whether you are visiting for warm summery days on the fjord, skiing and trekking in the Oslo forest or fine Michelin star dining, a visit to this new undisputed capital of Scandi cool is a great choice for a short break from the UK. Fly into Gardermoen, one of the world’s most eco-friendly airports with its award winning new terminal and the airport express train will have you in the city centre in just twenty minutes.

5/ KONTRAST
LOCATION: Maridalsveien 15, 0175 Oslo, Norway
A modern Scandinavian restaurant with a semi-industrial feel created by a concrete floor, exposed pipework and an open kitchen. New dishes are served daily using ingredients that are both local and at the peak of their season. Owner/chef Mikael Svensson states that ‘The end result is never better than the quality of the product you start with’, which is why perhaps at Kontrast they only use animals that have lived their lives free and wild. The restaurant has one star in the Michelin Guide.
